

GOVERNMENT SUSTAINED BY CLOSE VOTE OF 53 TO 47 ON N.S. COAL BONUS ISSUE

Both Sides Were Well Represented — Speeches by Nairn, Fortune and Lloyd for Government — Spector, Forsey, Kelloway and Schwisberg for Opposition — Government Emphasized Need of Subsidy — Deploable Existing Coal Conditions Explained — Voting so Close that Division was Necessary

The Government won by 53 to 47 in the third reading of the Coal Bonus Bill. Moved at the second session of the Mock Parliament held last night in the hall room at the Union. There was a good attendance, the Government and Opposition both being there in force, while the gallery was filled with those of the fair sex.

Opening remarks in French came from Forsey, of the Opposition, dealing with the main issue of the evening—the Bill to provide a bonus for coal mined in Nova Scotia.

One member of the Opposition then enquired why Wednesday night was chosen for Parliament to meet as, according to the law as laid down, this evening should be free. Lloyd, of the Government answered this query: "I don't know if it interferes with the Hon. Member's prayer meetings, but, if so, he can leave." (Laughter.)

The question was raised by the Opposition as to the measures taken by the Government to prevent the big fish from swallowing the smaller ones.

"I am unaware of any measures taken in this direction," replied G. Nairn "but I know that a big fish, in the form of the Government, is going to swallow a small fish, the Opposition, tonight." (Laughter.)

The Speaker, Mr. K. H. Huggison, then called for order, and asked for the Presentation of Bills for the First Reading. As none were forthcoming he next called for petitions, but this likewise drew a blank.

The piece de resistance was then called for—"The third reading of the Bill to establish a bonus on coal produced in the Province of Nova Scotia."

This reading was moved by Gordon Nairn, who spoke as follows: "This question is of paramount importance in Canada today. Our dependence on our neighbours to the South for our coal supply is steadily increasing. About forty years ago coal became an industrial factor in Canada, and, since then, our consumption has been rising rapidly. Anthracite coal was discovered in Pennsylvania and by exhibiting their products throughout Canada the American producers succeeded in monopolizing our markets. During the U. S. coal strike in 1902, the price of coal, in Canada, rose to \$35 per ton, and this strike was keenly felt by the Canadian consumer. Two years ago our eyes were opened to our dependence on the U. S. for coal: due to the strike at that time, only 50,000,000 out of 150,000,000 tons were mined.

Misery Worked by Strikes. The result will be remembered: our industries were first affected, and then our domestic life felt the pinch: queues were in evidence; sickness developed due to lack of heat; all these followed in the wake of this disaster. During all this, our own resources were remaining undeveloped.

The United States have not our unlimited supply and, sooner or later, they will place an embargo on coal to Canada: we will then have to get our own supply. This is the reason why this Bill is being introduced. Due to their geographical position, the Maritime Provinces have heretofore been left out of the life of the Dominion and we should now develop their coal mines." Figures were then quoted to show the enormous quantities of coal that Canada has at her command—waiting to be mined.

"Although anthracite is preferred to soft coal, experts have shown that the latter, when properly handled, will give equally satisfactory results. "Therefore it is our national policy to develop these mines, as the United States support may fail us at any minute." (Applause.)

This Bill which provided for a bonus of \$1.50 per ton, was seconded by Scharte, of the Government.

Spector, Chief Whip of the Opposition, was the next speaker. "Canada is at present, at a crucial period of her history," he stated, "Men of strong brawn and men of great capacity—not politicians. These have turned their coats since the last meeting.

Bill a Subsidy to Corporations "This Bill will increase taxation and will be of benefit only to one section—namely the British Empire Steel Corporation. This Bill senses of the Teapot Dome proceedings. The relieving of unemployment by increased taxation will result in bankruptcy. A subsidy doesn't mean that Canadian coal can compete with the American product, the figure of \$1.50 per ton will not enable such competition."

Nairn then asked for figures to justify these latter statements and Spector replied that coal was being mined and delivered at the pit mouth at \$3.50 per ton. He continued to state that such a bonus would have to be allotted as to make taxation a burden. Quebec and Ontario industries he said, would continue to buy coal from Pennsylvania as they were bound by long contracts. He then raised the question as to why the Government did not set the example by buying coal from Nova Scotia. There was some discussion, then, as to whether the Government did, or did not, get coal from U. S., James and Nairn upholding the affirmative.

Spector wound up by running down the present Government and its methods, citing a deficit of millions of dollars, the C. N. Rys, and the West. He emphasized the point that further taxation was ridiculous in view of the present bad business conditions. The Opposition, he concluded, was in favor of helping Nova Scotia and of improving the R. R. facilities: they proposed a re-organization of the N. S. mines under Government supervision. "The Government," he added, "as a final thrust, 'Is either mad or bad!'"

Bob Fortune, of the Government, then sought to justify the Bill: "A concise account of the issue at hand has been given by the Minister of Mines

Canada: we will then have to get our own supply. This is the reason why this Bill is being introduced. Due to their geographical position, the Maritime Provinces have heretofore been left out of the life of the Dominion and we should now develop their coal mines." Figures were then quoted to show the enormous quantities of coal that Canada has at her command—waiting to be mined.

E. COCHRANE WINS TENNIS CHAMPIONSHIP

R. V. C. Finals Played Yesterday

THREE SETS

Miss De Blois Was Defeated After Close Game

Miss Edith Cochrane, R. V. C. '27, won the R. V. C. singles tennis championship yesterday by defeating Miss Madeleine De Blois. "2" after three closely contested sets, in which the score was 4-6, 6-3, 6-2.

Both players have shown great improvement this year, and an excellent brand of tennis, featured chiefly long low drives, was maintained throughout. Many splendid back-hand strokes were made particularly by Miss Cochrane.

In the first set Miss De Blois appeared to be the stronger player. She took the first two games without much difficulty. In the third game there were some splendid rallies and it was not until after the score had reached 4-6 that Miss Cochrane succeeded in winning it. In the next two games each player won her own serve, after which Miss De Blois won two games and Miss Cochrane won two, bringing the score to 5-4. Miss De Blois then took a love game on her serve, making the score 6-4 in her favour.

In the second set Miss Cochrane lost her first serve, after which she took three games in succession by her accurate placing. Her playing was much better than in the previous set and she did some spectacular slashing at the net. Miss De Blois won the fifth game, after which Miss Cochrane won a duce game and a love game. Miss De Blois took the next, and forced Miss Cochrane to the utmost in the last game of the set, which the latter finally won after duce had been reached four times. The set ended 6-8 for Miss Cochrane.

Miss De Blois appeared somewhat tired in the last set, and succeeded in winning only her first and third serves, though she put on a very good fight and brought the score to duce three times in the second last game, when the games stood 4-2 in favour of Miss Cochrane. The champion continued to play a steady and accurate game and her superior placing finally won her the set with a score of 6-2 making her the R. V. C. singles champion.

The consolation tournament has now reached the semi-finals, in which Miss H. Sangster will play Miss I. Allen and Miss I. Seriver will play Miss E. Cameron. Miss Cartwright has also offered a prize for a Second Consolation tournament, for which those who were defeated in the second, third and fourth rounds of the tournament may compete. The Inter-year singles and doubles tournaments are to begin very soon.

PRINCIPAL TO MAKE TRIP TO KINGSTON

Special to Carry Crowd to Queen's Game

That Sir Arthur Currie, Principal of the University, and Col. Bovey, his secretary, will make the trip to Kingston on November first with the special train was announced last night in interview with Basil McLean, president of the Students Council.

The special train will make the trip only if 102 tickets can be sold. These tickets are on sale now at the Union and can be obtained from the porter in the Truck Shop. The special rate is \$9.20 return fare and this will give any student desiring to support their Alma Mater at Kingston a chance to make this two hundred mile trip at a very reasonable cost.

The Rooters Band also intends to make the trip and with this excellent feature McGill should be well supported and Fisheries who has just returned from N. S. He says that the men are all working hard in co-operation with the Govt. for better conditions. The question of subsidies for N. S. is a big problem and concerns the life and homes of the people.

Nova Scotia Coal Inferior. To wisdom of encouraging immigration was then questioned by Fortune: we are bringing people into Canada, when we have very cold Winters, and yet are dependant on another country for our coal supply. At present there are 12,000 coal workers in N. S. producing 6,000,000 tons per year.

(Continued on page three)

RUSTY DAVIS' FINE PLAYERS AT UNION

Second Jazz Tea To-day at 4.30 in Cafeteria

The second Jazz Tea of the present session is to be held this afternoon in the Union cafeteria at 4.30. This time the orchestra of Rusty Davis has been obtained and what they long knew about the latest jazz would certainly be hard to find in any music store in Montreal.

This orchestra is perhaps one of the best in the colleges at the present time. Davis has gathered about him an aggregation of musicians who have had real experience, and there is not one of them who cannot perform all the latest feats on his particular instrument. This is further substantiated by the fact that most of Davis' men played on Willard Crocker's orchestra last year so that those who remember the famous jazzers will have a fine opportunity to renew their acquaintance this afternoon.

Jazz teas have been gaining popularity more and more as time goes on and it is now possible to find accommodation in the cafeteria for those who wish to attend. No seats can be guaranteed by the management after half past four.

Pierre will be all ready behind the counter to handle a record crowd and will have on hand an extra supply of pastry and oals are sure to be the best obtaining and will suit the taste of even the most particular student.

For an hour of afternoon tea coupled with the enjoyment of listening to a first class orchestra this jazz tea to-day can be beaten, and patrons are advised to come early and make sure of their seats.

McGILL STARS DO WELL IN TOURNAMENT

Wright, Crocker, Leslie, in Indoor Tennis Championship

SINGLES TO-DAY

No Dope Upset as Yet in Play

The McGill men entered in the Canadian Indoor Tennis Championships won their matches yesterday at Cote des Neiges. No upsets were staged in the tournament; the dope running true to form in every match and no game going more than two sets.

Willard Crocker, the McGill star and Canadian Davis Cup player, won his singles match from Gaunt with comparative ease, the scores being 6-0, 6-4. Charlie Leslie another McGill entrant and former Canadian Junior champion, did not play to-day in the singles, but when paired with Landry forced Crocker and Morrice to the limit, the last set going to duce and being productive of some particularly fine tennis. Morrice is a McGill graduate being winner of the Intercollegiate Tournament last year. His steadiness seems to pair well with Crocker's brilliance and they are conceded to have a good chance of winning the title. The best teams that come up against will be the Cassila-Brown combination present holders of the championship, and the team of Sam Hardy and Laframboise while Wright and Robert will also make a great bid for the title.

To-day Leslie will meet Crocker in the singles at 5 o'clock and those who saw the match between these two during the semi-finals of the McGill tournament will witness that there was action in every second of the game. There match to-day should prove to be one of the best.

The Varsity players Munns and Worsley were eliminated yesterday by Cassila and Brown 6-3, 6-0. Jack Wright did not play in singles yesterday but will have to play twice to-day unless Davidson puts him out, a proposition which is extremely unlikely to materialize. He and Robert meet Dr. Cleveland and Dunlop to-day and this match should furnish some excitement.

Wright and Crocker are both conceded good chances in the singles although Rennie may be depended on to make a good showing.

ported at the match.

If over a hundred rooters can be found who are willing to make the trip, the train will leave at a time considered most convenient for those concerned. In any case the trip will be arranged so that members of the party will be able to take in the dance on Saturday evening

ARTS BEAT DENTISTRY YESTERDAY

Dentals Downed by 3-0 Score

EVEN PLAY

Arts Were Very Much off Form — Dentals Improving

Buck Greene's Dental Corps of Mole-skin artists held the fast Arts squad to a three to nothing score when they met on the Campus yesterday afternoon. The Dentists have "bucked" up considerably since their last game and put up a much better game than they turned in against the Commerce outfit. The arts squad however did not seem to be playing their usual good game and were perceptibly weaker than when they held the strong Science team to a 6 to 1 score. The game was not half bad but the football was certainly not Interfaculty standard. There are at least three teams who could have easily trimmed either team and unless both squads show a surprising burst of improvement they will find themselves at the bottom or as near there as is possible. The Arts team can certainly play better football than they played yesterday and they will have to in future if they are to become contenders for the championship. It must be said for Dentistry, that they are showing great improvement and when it is remembered that this is their first year in the league they must be given credit for their showing.

Arts scored three times, one in each quarter up to the third. Their points came from the kicking of their half back Gardener, who turned in a good game, in kicking and in line plunging. Bronson Bourne and Gammil also played a good game on the secondary defence and contributed their share in making yards. Walsh, the erstwhile senior was a tower of strength on the line and did much to bolster up the team.

For the Dents, Buck Green played his usual brilliant game calling the signals and engineering his plays well. Green called upon his backs to do all the plunging and they did this notably well especially McMahon who was a consistent gainer.

The teams lined up as follows:

Arts.
Flying wing
Orr Gregory
Outside
Burbank Davis
MacCallum De Rosa
Middle
Herman Tennant
Walker Walsh
Inside
Carson McDonald
Baxter Code
Snap
Berwick Dixon
Half
McMahon Gardener
Morton Bronson
Beaton Bourne
Quarter
Greene Gammil
Subs.
Voisard Jones
Dagg Cameron
Goldman Smith
Klein Martineau
Goodman Smythe
Davidson
Referee—Rev. Puddicombe and M. Head. Linesman E. Forsey
Abinovich.

ANNUAL BANQUET AT STRATHCONA HALL

Charging the younger generation with the task of rescuing the world from the dilemma into which the older generation has plunged it through its mismanagement of political and religious issues, Mr. A. O. Dawson addressed the Ninth Annual Banquet of the residents of Strathcona Hall yesterday evening in the building.

The banquet was attended by about fifty men and was thoroughly enjoyed by them. After an excellent menu, Mr. F. S. Hawes made a few well chosen remarks followed by Mr. H. R. C. Avison who introduced Mr. A. O. Dawson the principal speaker of the evening.

Following Mr. Dawson's excellent address music was had and enjoyed by all.

PROSPECTS OF HARRIERS ARE BRIGHT

Best Outlook Since Win of 1919

TRIALS SATURDAY

Runners Hope to Bring Big Trophy to Montreal

Just ten days from now the Red and White distance running team of five men will be leaving for Kingston to compete in the Twelfth Annual Inter-collegiate Harrier Meet over a six mile course—finishing at the Richardson Memorial Stadium.

In the long string of past contests in this sport, McGill has won but two victories. 1910 and 1919 saw the Red and White finish in front of fast teams from Queen's, R. M. C. and Toronto. Not since the days of Antilife's famous team of 1910 have McGill's chances in this oldest and most classic of sports appeared so bright as they do now.

Kerr, the Captain of the team, and Brain, who finished fifth in Toronto last November, are veterans of past Inter-collegiate races and have both been training faithfully for some time.

"Nate" Rubin, star McGill miler—twice Inter-collegiate champion—will seek to repeat "Hammy" Hamilton's great performance of 1919, when that Red and White hero of former years, clinched the title for McGill in a thrilling finish in front of Alec Bell of Toronto.

Wallace Goforth, Captain of the Champion Varsity Harrier team of 1923 and twice the individual winner of the race is now at McGill, and showed his old time form last Friday by capturing the Intercollegiate Three Mile title for the third successive year in a driving finish with Turnbull and Graham of Varsity.

Walker of Macdonald college, who finished a game fourth in last Friday's Three Mile contest should be vastly improved with another fortnight's training. Henry Airey and Jack Duckworth McGill Half-milers, should, with their light build and easy stride, pull down places on the team.

Griffison, Clement, Hurd, Brodie, Boness are among the many others who will be fighting for places on the team. The selection will be made from the first six to finish in next Saturday's Inter-faculty Harrier Race.

Reports from Queen's R. M. C. and Toronto indicate strong opposition. L. Boutellier, the veteran R. M. C. captain will lead out the strongest cadet line-up of many years. Queen's have three freshmen stars as the nucleus of a strong team. Bobby Thompson's thrilling victory last week in the Inter-collegiate Half Mile, and the game performance of both Trenouth and Harvey Thompson in the Three Mile event have raised the hopes of the Tricolour for their first marathan victory in the history of the race.

Toronto Varsity, champions for four successive years, are confident of repeating their great tradition under the leadership of Doug. Turnbull, one of the star's of last November's meet, and Goforth's closest rival in last Friday's race. Graham, the young Dental star, Slaver of Meds., Alec Grant, a promising young Science freshman, and Bonnycastle of Trinity will probably compose the Toronto team in the forth coming meet.

The "W. B. Little" Cup, which is emblematic of the Intercollegiate Harrier

MORE TICKETS ON SALE FOR INFORMAL

Previous Supply Inadequate to Demand

TWO SUPPERS

Management Completes Arrangements for Record Crowd

That the much discussed younger generation has not discarded the gentle art of ball room dancing as a past time was amply, fully, completely and indisputably proved yesterday noon when many eager youths, their faces beaming with anticipation, sought tickets for the opening informal dance of the session, which is to take place tomorrow evening. This inaugural function, which is holding the place of favour at present, will be held in the renovated hall room of the Union and as no finer surroundings for a dance can be found within the boundaries of seven counties, ten townships, and forty-one states, the dancers are assured that the environment will be absolutely perfect. To those fair co-eds and the stern students who have not already seen the changes, the room, as it is to-day, will be a veritable revelation, a revelation which will add greatly to the enjoyment of the evening.

Yesterday, for a time, it was thought that many would be disappointed, for the rush for tickets was great, but it has been announced that there will be a further sale. The precious passes in to the halls of pleasure are to be had at the porters' stand but the dilatory are advised to make haste lest they be refused those mystic bits of card board, of which but few remain. And the few that are left will go quickly, for the arrangements are such that even the most blasé and sophisticated are being drawn out of their haunts to stop lightly for one evening at least. Prominent figures of former years have announced their intention of being present, most forceful of all teachers.

As has been announced already Cliff Menzies, famous for his power over the tenor banjo, will be present with his newly formed Collegians' Orchestra: the pianist of which is Willard knows as much about the strings of an upright or a grand as he does about the strings of a racket, and that's saying a whole lot in a little space. The orchestra totals six pieces, each instrument in the hands of an expert musician, and it is especially interesting to note that next day the Collegians will make their formal bow before the public at the opening of the Gables.

The patrons for the evening include Col. and Mrs. Bovey and Dr. and Mrs. Furness. A full list will be published in tomorrow's issue of the Daily.

Union officials who by the way from the present down or is it up?—are well versed in the terpsichorean art, have

(Continued on page four)

rier title, is one of the most beautiful of college trophies. It is a graceful bowl resting on the shoulders of three classic runners—all in solid silver—and mounted on a mahogany stand, surrounded with silver shields, which indicate the victorious teams of successive years. Too long has this beautiful piece of silverware graced the halls of Hart House, and it is to be hoped that Captain Kerr's team will bring it back this year to decorate our own Union for a while.

EIGHT GIRLS RUN LAUNDRY MACHINERY AT OHIO STATE UNIV.

A mangle, two pressers, two washers, one dry tumbler, and one wringer compose the mechanical machinery which does exclusively the laundry work of the Ohio State University. Eight girls run the machinery.

Piles of pressed, clean towels, pillow-cases, sheets, nurses' uniforms, aprons, and bed-spreads from Oxley, Mack, Pomerehne, and South Halls, nurses' homes, and the gymnasiums, are turned out every ironing-day. Wednesday and Thursday. A laundry truck collects and delivers the wash goods.

Five days and a half each week the girls work from 7 A. M. until 4 p. m. in the basement of the building, directly back of University Hall. Down a flight of stairs, a step inside the doorway, and broaching becomes difficult, for here the rooms are oppressively hot. Their large electric fan is broken and smaller fans do not cause sufficient circulation of the air.

The mangle is a large mechanical structure, run by electricity and operated by two girls, one who feeds it or puts in the washed pieces and one who takes each article out as it

is pressed. There are sets of rollers over which the articles are run over which canvas is stretched; when the machinery is started the canvas, on which the articles are laid, rolls over and over, pressing them. It can only be used for straight garments, but at one time three or four towels can be pressed.

The pressers are like two ironing-boards put one on top of the other and clamped down when pressing articles. The washers are like two churns which close up, and rock the washing back and forth until clean.

MONTREAL, THURSDAY, OCTOBER 23, 1924

OLD SUPERSTITIONS ARE DYING.

Superstitious beliefs which have profoundly influenced the lives of people in past generations are becoming more and more vulnerable and obsolete. This is particularly evident in western nations, and among the younger people of those nations. Almost any day one may see somebody walking boldly beneath a leaning ladder, or a trio using the same match, without paying any more attention to the act than perhaps passing a cynical remark about the dire calamities supposed to result from it. The success of multifarious tricks practiced by magicians depended on the superstitious tendencies of their witnesses, who firmly believed they saw what reason would readily tell them they did not see.

When skepticism asserted itself and reason was resorted to, the magician became the fool instead of a human being endowed with supernatural powers. There is no more striking example of this than an incident which occurred at the Wembley Exhibition. A feature at that Empire event long looked forward to was an exhibition of the famous Indian rope trick. It was to be the crowning glory of the exhibits from India. An Indian juggler was present who said that he could do the trick, and it was arranged to demonstrate it in the presence of representatives of the press. At last the wonder of Indian magic was to be verified. The story about this extraordinary bit of juggling is familiar. The magician throws a rope up into the air, where it hangs as if suspended from something. His assistant climbs up and disappears until soon his dismembered body falls into a basket on the ground, out of which he presently steps intact and smiling.

Alas, under the skeptical eyes of the reporters the attempt was an entire failure. The performance was indefinitely postponed.

It was suggested that the proper way to account for the supposed phenomenon was that it had never been seen except by some whose minds were in an hypnotic state. Transplanted in a western civilization, under the critical eyes of skeptical witnesses, the trick failed to materialize.

Aburd as they may seem to us to-day, such things which are based on superstition at one time were, and still are, in segregated parts of the world, stern realities. Whether life has lost any of its colour because of their passing is doubtful. There is at least a great deal of satisfaction in being sure that nothing will happen if we walk under a ladder unless the ladder falls.

CONDENSED COMMENT.

A fairly proportionate programme of wit, humour, apt repartee, and serious discussion of current Canadian problems, at last night's Mock Parliament, was favourably commented upon by a rather meagre assemblage of student politicians and interested spectators. If there is any criticism that might be applied to the event it is this, that speakers were too frequently interrupted during the course of their discussions. The attention of the audience was distracted and the effect was far from contributing anything towards the success of the parliament.

MUSICIANS SET FOR GAME WITH QUEENS

To Provide Melodious Strains at Saturday's Fray

An enthusiastic turnout of the rooters' band took place in the Union hall-room at 5 o'clock last night. Before the practice began, the musicians showed that they were really eager for the activities to get started by the way they began to tune up their respective instruments. If the deafening notes which issued from the musical apparatus during this tuning up process is in any way indicative of the zeal which each player feels for the band, then, a very successful year is assured.

At about a quarter past five, Bob Logan, called the band to order and the music started in earnest. The moaning of the saxophones, the piping of the flutes coupled with the crashing of the roaring of the drums proclaimed to one and all that Logan's aggregation was rounding out in fine shape. The way in which some of the players blew their wind instruments would have led one to believe that they were in imminent danger of setting a blood vessel. Nothing so fortunate happened, however, since such players are imbued with lung-lungs.

Under Logan's able leadership, the band seems to have reached a very high standard. The players are very

keen, and by all indication intend to keep up the reputation which the band has attained since it was first organized.

Alex Olmstead, the cheer leader, was an interested spectator at the proceedings; and when approached for his opinion about the band, stated that although he did not know very much about music, he felt confident, however, that the rooters' band will be one of the chief attractions at the Stadium on Saturday when Queens clashes with our team. In fact, he added, with a smile, that next to his rooters the band ought to make a good impression!

It is rumored that at half-time on Saturday a divertissement is going to take place. What this will be is as yet known to but a few; and those who are on the inside of the matter say that it is something that will not be forgotten for many a day. Sid Pierce and Hank Gaboury, it is reported, are in charge of this mystery.

NOTICES

HARRIERS.

Practices are now held daily at the Stadium at 5 p.m. This is a good way to get your gym attendance. There is a trip to Kingston for those making the team, which is composed of six men, so all out and try for a place.

SKIERS, ATTENTION.

Prospective ski runners are urged to run with the harriers. Practices daily at the Stadium at 5 p.m.

Manager.

GOLF CLUB

The executive of the golf club have arranged with Beaconsfield and the Royal Montreal Golf Clubs to allow candidates for the Intercollegiate team ample opportunity for practice. The visitors register in each club must be signed. All purchases made are to be signed for by the individual and also put McGill on the bill. The following are the persons to whom these privileges are extended: J. G. Mickles Jr., Jack Cameron, R. N. Hayes, R. Cochrane, Waide Allan, A. W. Mitchell, T. McAvity, W. Powers, Steacy, West.

If those feeling they have the ability to match the team would please get in touch with W. B. Aplan Up. 8633 or L. G. Mickles Pl. 6979—arrangements will be made to get these privileges extended to them. It is advisable to get in as much practice as possible.

SICK STUDENTS.

Students who are confined to their rooms or to the hospital through illness will be given flowers and other attentions by the Ladies Auxiliary of the S.C.A. Anyone knowing of sick students are asked to communicate with Mrs. Willey, Up. 3201.

SWIMMING.

The McGill hours at the K. of C. tank for water polo and swimming are as follows:

Monday, Wednesday and Friday—5.30 p.m. to 6.45 p.m.

General swim Tuesday, 2.30 to 4; Thursday, 5 to 6.

Pool also open Tuesday, 5 to 6.30; Saturday, 2 to 6.

Mr. Mark Verrey will be on hand to give swimming instructions on Tuesday from 2.30 to 6.30.

INTERFACULTY FOOTBALL.

Fifteen games in all have been arranged, and the schedule is as follows: Comm. vs. Law—Friday, Oct. 24. Med. vs. Dent.—Monday, Oct. 27. Arts vs. Comm.—Wednesday, Oct. 29.

Law vs. Sci.—Friday, Oct. 31.

Med. vs. Arts.—Monday, Nov. 3.

Comm. vs. Sci.—Wednesday, Nov. 5.

Law vs. Dent.—Friday, Nov. 7.

Med. vs. Comm.—Wednesday, Nov. 12.

Arts vs. Law—Friday, Nov. 14.

Sci. vs. Dent.—Monday, Nov. 17.

As the last game comes at late as Nov. 17th, all the games must be played or their respective dates—rain or shine, and must all start at 3 p.m. sharp.

Campbell Cope, the senior manager, will supply the referees.

GYMNASIUM CLOTHING FOR SALE.

A few suits of Gym. clothing, both old and new. Apply to the Janitor at Molson Hall.

GYMNASIUM CLASSES.

Classes for Arts and Commerce commenced yesterday. The time table follows:—

Arts I, B.Sc.—Mondays and Wednesdays at 10 a.m.

Arts I, B.A., Tuesdays and Thursdays at 10 a.m.

Commerce I, Mondays and Wednesdays at 10 a.m.

Commerce II, Tuesdays at 11 a.m. Thursdays at 12.

All classes have now commenced, and attendance is being taken.

TO THE MANAGERS OF ALL INTERFACULTY SPORTS.

Attendance sheets may be obtained from the office of the Secretary, Department of Physical Education.

These sheets are to be turned in at the office each Monday. Attendance is now kept, and it is important that Managers should understand the regulations.

CERCLE FRANCAIS.

The next meeting of the Cercle Francais will be in the Union on Monday evening, Oct. 27. All members, and prospective members of the Cercle are asked to attend, as a very interesting programme is in store— including a debate, "Resolved: that dancing is immoral." The debaters will be J. Boganio, Arts '26; G. B. Puddicombe, B.A. Law '26, affirmative; J. Helal, Law '26, and R. G. Mousseau, B.A., Law '27, negative.

PSYCHOLOGICAL SOCIETY.

The first meeting of the society will be held to-day, at 5 o'clock, in the Psychological Laboratory, Arts Building. All members and prospective members are particularly asked to be present. As very important business is to be brought up, it is essential that the full membership be present.

TRACK MEN, ATTENTION.

All men who received any equipment from the track manager, this year, are requested to return same immediately. The manager will be at the Stadium to-day between 2.30 and 5 o'clock.

McGILL ROWING CLUB.

Five o'clock, Friday, Music Room, Union. An open meeting will be held for the election of faculty representatives, and of a committee to look after the club property, to announce coaching and rowing hours, to make arrangements for taking members out to see the club-house and property at Lakeside, and to discuss the use of the club-house during the winter. This has been corrected from Thursday.

CHESS CLUB.

Members of the Chess Club who are taking part in the elimination contests for the chess team are urged to play off the games as soon as possible. Round 3 will be played as follows:—

Jubien vs. Garelick.

W. Pitcairn vs. Taylor.

Kurlo vs. Kurner.

K. S. Pitcairn vs. Crepeau.

Edel vs. Pangman.

Round 4.

Jubien vs. Taylor.

Garelick vs. W. A. Pitcairn.

Kurlo vs. K. S. Pitcairn.

Crepeau vs. Pangman.

Kurner vs. Edel.

McGILL BIOLOGICAL SOCIETY.

The first meeting of the Biological Society will be held in the large lecture room of the Biological Building, on Friday, Oct. 24 at 5 o'clock Dr. A. Willey P. R. S. Professor of Zoology, will speak on "Life in Northern Quebec." All who are interested are cordially invited to be present.

LECTURES IN PHYSICS AND COLLOQUIA.

On Thursday, in Room 2, MacDonald Physics Building, at 5 p.m., Dr. L. V. King, P.R.S., will give the first graduate lecture of this session on Molecular Structure and Optical Phenomena. This is the first of a series of three lectures on this subject. The graduate lectures will be open to all who are interested.

LOST

Lost on the Campus, Locker Key No 68. Finder please return to Betty Osgood Arts '26.

McGILL PHYSICAL SOCIETY.

The next meeting of the McGill Physical Society will be held in the MacDonald Physics Building on Friday, at 5 p.m. Subject: B. A. Meeting, notes by Dr. A. S. Eve. Exhibition of an ice painting by Mr. W. M. Barnes, A.R.C.A.

You are cordially invited to attend.

MR. HOME,

Secretary.

MEDICINE CLASS PRESIDENTS, ATTENTION!

Will those classes in Medicine who have not yet elected a representative to the Medical Dinner Committee do so as soon as possible. There will be a meeting of this Committee in the near future. Watch this column for notices.

S. L. HARRIS,

Chairman.

ENGLISH RUGBY.

There will be practices all this week in preparation for the Varsity game in Toronto on Saturday, and full attendance is required, especially on Thursday. The committee will meet after Thursday's practice in the Union at 6.30 p.m., to select the team.

SOCIETE FRANCAISE EXECUTIVE

There will be a meeting of the Societe Francaise Executive at 1.30 to-day in the Faculty Room R.V.C.

Hon. Pres.—Mme. Furness.

Pres.—L. Desbarats.

Vice-Pres.—G. Hart.

Sec.—Trans.—B. Lyman.

Rep.—'25—J. Affleck.

Rep.—'26—O. Parker.

Rep.—'27—M. McSparran.

CONSERVATORIUM STUDENTS

The Faculty of Music Undergraduate Society is planning a very interesting program for the coming year. All music students are urged to join as soon as possible. Fee one dollar, payable to the treasurer, Janet McKay.

MUSIC CLUB.

The Music Club will meet this evening, at 8.15, at the residence of the President, W. S. Sheppard, 157 Edgemoor Road. Those wishing to attend are advised to take the Guy—Beaver Hall car and get off at Edgemoor Road and the Boulevard. Mr. T. H. Blair will speak on the "Educational Value of Music." All interested are welcome.

MED. SOCCER.

The Med. soccer team which played Arts last Thursday will turn out to play Science to-day on the campus. The kick-off is at 4 p.m. Meds will wear a white shirt. Please be on time.

CONVERSAT.

Next Wednesday night, Oct. 29th, the S. C. A. is holding the Annual Conversat in Strathcona Hall. Come One! Come All! And let McGill meet R.V.C. during this social evening.

Everybody welcome. Watch the "Daily" for further announcements.

MACCABAEAN CIRCLE STUDY

GROUP.

The first meeting of the Study Group will take place on Tuesday evening, October 28, at 4059 Dorchester St. West, at 8 o'clock. There will be a discussion on the topic of "Racial Differences." All students interested are invited to be present.

HARRIERS.

The Harrier Club is holding its annual Interfaculty competition Saturday morning at 11.45. Every long-distance man should enter.

HISTORICAL CLUB.

The members will meet in the Union, to-day, Thursday, at 1.45, unless otherwise notified by the executive. Everyone must be on time.

ARTS INTERFACULTY RUGBY.

There will be a signal practice at 1 o'clock to-day on the campus. Every body turn out for a few minutes—no uniforms.

FOUND.

On Campus, a silver wrist watch. Initial P. L. A. Christmas, 1914. Apply McGill Union.

SCIENCE '28.

There will be a very important and short class meeting today at 5 p.m., in Room 33. All are requested to be present.

NOTICE.

The Arts Freshman-Sophomore banquet will be held this evening at 6.30, in the Union.

GOLF CLUB.

Golf club meeting to-day at 5 p.m. in training table room at Union.

McGILL RIFLE ASSOCIATION.

Members should note that the Association has decided to leave at 8.30 o'clock instead of 9. Aperture sights are to be issued this Sunday, so every one should be out. Two rifles were not returned to stores last Sunday. They are expected to be returned before this Sunday.

Fees are due this Sunday.

COMMERCE INTERFACULTY RUGBY.

There will be a signal practice this afternoon at 2 p.m. All players are requested to be on hand as this is the last practice before our game with Law to-morrow.

LOST.

On October 22nd, between twelve and two, one Eversharp pencil, either between Chemistry and Engineering Building, or in Room 37. Will finder please return to Janitor in either of the above buildings.

Bovril gets you well quickly

Where Were You Last Night?

DID you step around to the Union after your studies? Or did you drop in after the show to get a "snack" before going home? The Cafeteria is open until midnight to provide that service for you.

Hot Toasted Westerns

seem to grow more popular each night. An omelet, some chipped ham and just a dash of onion between layers of brown crispy toast. That's a Western Sandwich.

BUT you may have tomato or other combination sandwiches, pastries or special orders of steak and fried potatoes to go with the steaming coffee or tea. And all at prices that are lower than the proverbial snake's tail. Meet me tonight at the Union and "call my bluff".

Pierre

GOVERNMENT SUSTAINED BY CLOSE VOTE OF 53 TO 47 ON N. S. COAL BONUS ISSUE

Continued from Page One

The reasons that Quebec and Ontario are getting their coal from Penna. are: (1) N.S. has not had a chance to develop its mines, (2) the difference in the distances of these respective mines (3) N. S. coal is inferior to the Penna. product. This last statement was shown, however, to be false by Fortune who quoted the heat values of different varieties of coal: the only coal superior to that of N. S. was the best Welsh, he stated. The bad smoke given off by N. S. was entirely due to ignorance in handling and could be remedied by a proper study, thereby enabling it to compete with the Penna. coal.

Competition, under present financial conditions, is impossible and the N. S. Coal Mine Committee states that the mines will have to be closed. Should this step be taken the results will be appalling: the pumps will cease and the mines will fill up with water; should it be desired to reopen them in the future the reconstruction cost will be tremendous.

"Are we going to block this bill," concluded Bob Fortune, "and stop the development of these mines and let the U. S. regulate our coal supply? If so, it will be a national disgrace and reproach!"

Member for St. John's Junction.
Hon. E. Forsey, opposition member from St. John's Junction scored the Minister of Mines and Fisheries for his changing attitude towards the British Empire Steel Corporation. He contended that in spite of this recent strong opposition to this syndicate the minister now offers them eight million dollars. The Minister, defeated his policy as being solely for the benefit of the mines and miners, in maintenance and supply of work, and not as being a benefit to any financial interests.

Forsey declared that the opposition were ready to develop the coal mines of the Maritimes, of all the Dominion, but opposes any subsidy which will aid corporations solely and singled out the B. E. Steel. This Company of somewhat unsavory reputation is badly managed and the transportation costs are now most excessive. He proposed that the Steel Corporation be taken over, and put under the control of Canadian capitalists under government supervision. The remedy of the conditions of the miners would follow immediately.

Hon. Forsey had also taken a trip through the Maritimes and had found only ill-feeling towards the proposed bill. The anthracite deposit of Nova Scotia was declared so small as to be a negligible quantity. The opposition's policy is the preservation and development of the national heritage. Benefits would be for the people and not for the interests. Nova Scotia industries would be put on a self-supporting basis. After some pointed remarks regarding the leadership and the proposed name of the government party, the speaker concluded by comparing the steadiness of the opposition with the changing attitude of the ruling party.

Wearied with the excessive flow of "words," Hon. James, Minister of Militia, considered that the honorable members in front of him were trying to bluff through with their eloquence. He quoted figures showing that in 1922 Canada paid 88 million dollars and in the last ten years 600 million dollars for coal from the United States. Fifteen of sixteen millions of tons come from that country annually while only fifteen millions are produced in all Canada. There is now an agitation in U. S. owing to scarcity there, to prohibit exportation of coal to Canada.

"They Have Us By The Throat"
He made a quotation from Ex-Dean Adams saying "They have us by the throat." We are at their mercy if they choose to prohibit exportation.

The facts of the difficulty of operation and the smaller extension of coal areas explain the higher Canadian price. The cost of hauling of N. S. coal is more than the American cost of production.

The necessary taxation to save this one section of the country from economic disaster would be spread over the entire Dominion. It is to the perdition of Canada if who would not make some sacrifice for its future.

A member on the cross benches asked if coal costing so much to produce is worth subsidizing.

MACCABAEAN PROGRAMME ANNOUNCED

Racial Differences Will Be
Subject of Discussion
NUMEROUS TOPICS

Discussion of Organization of
Club Will Precede the
Meeting

The Study Group of the Maccabean Circle will hold its first meeting on Tuesday evening, October 28, at 4059 Dorchester Street West, at 8 o'clock. There will be a discussion on the subject of "Racial Differences," introduced by Otto Klineberg. A short organization meeting will precede the discussion.

The Group will meet every two weeks, on dates to be announced later. A tentative program has been drawn up, consisting of discussions on the following topics:

1. Racial Differences.
2. The Races of Mankind. Is there a Jewish Race?
3. The Early Life of the Hebrew people.
4. The Hebrew Language—its history and its present position.
5. The Jewish Religion—its origin and development.
6. The Ethical Teachings of the Prophets.
7. Judaism and Christianity—similarities and differences.
8. Modern tendencies in the Jewish Religion.
9. Jewish characteristics, physical and mental.
10. The Problem of Jewish Separatism—The melting-pot and Jewish Identity.
11. A Critique of Jewish Nationalism.

The program has been devised with a view to presenting a general view of some of the racial and religious problems with which the Jew is concerned. The attempt will be made to discover how such problems may best be approached and their significance understood. All the discussions will be entirely informal and the group extends an invitation to all interested.

In spite of declarations to the contrary Hon. Schwab was not quite able to believe that the proposed subsidy was not for the benefit of the vested interests. They ask to subsidize inferior coal, and the amount of money necessary to bring this to a marketable price is still unaccountable. He declared that great joy would be expressed on St. Francis Xavier St. on the passage of the bill and the stock future of B. E. Steel would rise immediately. No scientific study was made of the problem and taxation, now very great owing to Railway deficit and other items, would be vastly increased.

Acting Prime Minister speaks
After Hon. B. Wells, leader of the opposition, waived his opportunity of speaking, Acting Prime Minister Lloyd concluded the lengthy debate. He emphasized the necessity of a national policy, and said that the subject in question had been thoroughly studied by the Fuel Commission for the past six months.

He declared on embargo on pulp and paper be impossible for the present for our southerly neighbors would immediately retaliate with a coal embargo and, as we are at their mercy, Canada's situation would be bad indeed. The proposed subsidy would cost annually seven million dollars, all of which would be spent in Canada for Canadians. In view of the fact that Alberta had used 90 percent of its own coal in 1924 in place of importing 70 from U. S. A. as in 1922 it was evident that help was not immediately necessary there. The railway deficit is largely due to the use of American lines for bringing in American coal while our own roads and ships are idle, a matter automatically adjusted by the greater production and transportation of Nova Scotia Coal, much greater benefit would have been done if the 600 millions used for the last ten years in purchases of American coal had been spent at home. Stress was laid on the tendency of Nova Scotia, and also New Brunswick, to feel that they had been neglected in the conditions of confederation and later Dominion policies, so much so that secession was given very serious thought. He advised he bettering of these conditions, the returning to the Maritimes of some of the past years' earnings, and the strengthening of the bonds of Union.

Owing to the spirited opposition to the proposed bill it was found necessary to call a division of the House and shortly before eleven

QUEENS WILL MEET SENIORS ON SATURDAY

No Injuries on Red and White
Squad

GOOD PRACTICE
Every Man on Team Will be
Available for the
Game

With the game with Queen's only two days away, the Seniors were out in force yesterday getting in trim for the battle. Yesterday's practice was a hard one and consisted mostly in heavy scrimmage work. For the past two days the team has been working at signals and practising running back kicks but yesterday they were treated to something a bit harder. For nearly two hours the coach had the team going at top speed and put them through one of the best practices to date. The squad is now practically rounded into form and the next two days will be spent in putting the finishing touches on the training. All those who have shape again and the coach expects that been on the injured list are now in every man will be available when the whistle blows on Saturday. Gordon, the husky outside man will be in form for the game after being absent from the line-up for nearly ten days. Gordon has been having a lot of trouble with a wrenched shoulder but is all right again. Bob McCombe who has been out with a sore ankle is also back and will be in uniform in the Queen's game. All the others who have been forced to take it easy for the past few days due to slight injuries will also be in shape for the game so that at least the coach will have no worries about men who are unable to get in the fray.

The game on Saturday is sure to be a gruelling one and there will be a great need for a large number of good substitutes. However, this year has brought forth an unusually large number of good men who can jump into the gap should any man have the misfortune to be injured. The coach has a substitute for nearly every position on the team so that if the worst happens the team will be able to carry on.

The Queen's squad are reported to be all ready for the fray and anxious to repeat their performance of last Saturday. The Kingstonians of course will come down confident of victory since they have turned back the team that beat the Red and White squad so decisively in Toronto. However, Coach Shaughnessy has made several changes in the line-up and there may be a surprise in store for the Kingstonians when they hook up with the Seniors next Saturday.

Advice To Freshmen
You May
Look it over

FENCERS.

A practice of the Fencing Club will be held to-day in Strathcona Hall. Tuesday and Thursday are the regular practice days, but members are invited to use the fencing room and equipment whenever the floor is not being occupied by other clubs.

CHESS CLUB.

Below is given the list of competitors in the elimination tournament for the McGill Chess Club team, together with the phone numbers of each, so that they can get in touch with one another, and play off the various games which will be announced in rounds daily. All others wishing to get into the club and try out are urged to get in touch with A. Edel, the secretary, Plateau 5439.

Arts: A. Garelick, '26, Belair 2081 J. L. Kirsner, '26, Belair 9260 J. A. Edel, '27, Plateau 5439. F. D. Kurlie, '27, Strathcona Hall. G. Hollingworth, '27, Uptown 9130. M. J. Hill, '27, Westmount 3130. K. S. Pitcairn and W. A. Pitcairn, '28, Westmount 0954 W. M. Garmaise, '28, Belair 6043 J. A. C. Lyons, Uptown 1416.

Science: L. Crepeau, '26, Plateau 5208. E. R. Juhlen, '26, Uptown 3103. W. H. Pangman, '27, Westmount 3916. J. Taylor, Physics Bldg. No more rounds will be announced. Each player is expected to play one game with every other competitor as soon as possible, and hand in the results to the secretary. The next meeting will be held on Monday at 5 o'clock.

SCIENCE SOCCER.

The following men are requested to turn out this afternoon at 4 o'clock to represent Science in the Interfaculty game against Medicine. Anyone unable to be present, kindly notify the undersigned as soon as possible.

The line-up will be: Plant, Cave, Anson, Helwig, McLeod, Holland, Baleney, Moffat, Archdale, Rinfret and Taylor.

Please notice the time, 4 p.m. sharp, and be there promptly.

J. L. BALLENEY.

WATER POLO.

The Intermediate water polo game scheduled for to-night with the C. P. R., has been postponed indefinitely. There will be a regular practice held on Friday at the usual time, and any new men who have played the game before are asked to turn out.

LOST.

On Wednesday, October 22, a gold watch with extension bracelet. Finder please return to the Secretary's office, R. V. C.

LOST.

On Tuesday, October 21st, a sterling silver fountain pen, without cap. Finder please return to Secretary's Office, R. V. C.

R. V. C. UNDERGRADUATE SOCIETY.

There will be an important meeting of the Undergraduate Society at 1.00 p.m. to-day.

R. V. C. '25.

There will be a "rooters' meeting" of the class to-day in Room 2, R. V. C.

HISTORICAL CLUB WILL MAKE TRIP

Members Meet at Union at
1.45 To-day

Commencing the season with an innovation, the Historical Club will travel this afternoon to Chambly. Here two papers dealing with the Basin of the St. Lawrence will be delivered by members of the club.

Its history will be treated in two sections, that up to 1760 A. D. being covered by H. Allsman A. '25, while A. A. Macnaughton A. '26 will read a paper dealing the subject from 1760 to the present.

After inspecting objects of historical interest in and around Chambly, the members will visit the home of Mr. Latier, some two miles away, at one o'clock. The Class Yell for the Inter-Year Competition on Sports Day will be practiced.

R. V. C. INTER-YEAR RELAY.
There will be a short practice for all the teams to-day behind R. V. C. at 1.45 p.m.

R. V. C. '28.
There will be a meeting of R. V. C. '28 in the Biologian Building to-day at one o'clock.

R. V. C. MUSIC CLUB

There will be a meeting of the Executive of the R. V. C. Music Club on Friday Oct. 24 at 1 o'clock in Room 2.

RUGBY.

All Junior and Intermediate rugby players should be out at every remaining practice this week, as important matters in connection with the next game will be brought up.

DELTA SIGMA SOCIETY.

The first meeting of the Delta Sigma Society is to be held in the R. V. C. Common Room this afternoon at four o'clock. Professor A. H. Smith, of the University of Montreal, will give an address on the poet Francis Thompson, author of "The Hound of Heaven." All R. V. C. students are invited, and those of the first year are particularly urged to attend.

R. V. C. TENNIS.

Miss Cartwright has kindly offered two prizes, one for the First Consolation Tournament, and one for the Second Consolation Tournament. In which those who were defeated in the second, third and fourth rounds will play. The draw will be posted to-day at ten o'clock.

R. V. C. INTER-YEAR TENNIS.

Class managers are requested to hand the list of their teams in before to-morrow, as the tournament must begin at once. Each year must have a first and second player for Singles, and a third and fourth for Doubles. Fourth Year plays Third, and Second Year plays First.

McGibbon, Mitchell, Casgrain, McDougall and Stairs

Victor E. Mitchell, K.C., D.C.L.; A. Casgrain, K.C.; Errol M. McDougall, K.C.; Gilbert S. Stairs, K.C.; Pierre F. Casgrain, K.C.; M.P.; John W. P. Ritchie; Leslie G. Bell; S. C. Demora; E. J. Waterston, Jacques Senecal.

MEETING OF THE R.V.C. HISTORICAL CLUB

The first meeting of the session of the Historical Club of R. V. C. was held on Tuesday evening at R. V. C.

The following officers were elected: President—Miss Joan Foster.

Vice-Pres.—Miss Louisa Fair.

Sec.—Treas.—Miss Edith Campbell.

Reporter—Miss Beatrice Lyman.

After some discussion two amendments to the constitution were adopted. First, that second, third and fourth year students taking courses in History and third and fourth year students taking History as a Continuation Subject should be eligible for membership. Previously, no second year students were eligible. Second, that a meeting of the Club should be held every three weeks instead of fortnightly. After a discussion of the programme for the year, which promises to be extremely interesting, refreshments were served and the meeting was concluded.

Had A Pull
Old Maid (to boys swimming in river): Isn't it illegal to bathe without costumes, little boys?
Johnny: Yes, ma'am—but Jimmie's father's a policeman, so you can come in.—Blue Stocking.

where the rest of the afternoon will be spent.

By meeting in the Lobby of the Union at one-forty-five, the Club should be well on the road to Chambly by two o'clock in the motor-cars procured for the occasion. It is obvious that one late arrival will disarrange the whole schedule, and each member is asked to do his best to be on time. It is planned return to Montreal by 6.30 p.m.

R.V.C.A.A. TO REVISE ITS CONSTITUTION

Formation of Women Students' Society Necessitates Change

A short meeting of the R. V. C. Athletic Association was held in the R. V. C. Common Room at one o'clock yesterday. The principal business of the meeting concerned the revision of the constitution of the R. V. C. A. A. The proposed formation of the McGill Women Students' Society necessitates the revision of the constitution of all subsidiary societies, among which will be the R. V. C. Athletic Association.

With this object in view a committee of ten, five of whom represent the R. V. C. A. A. and five the M. S. P. E. have drawn up a Constitution of eleven articles, which must be thoroughly discussed and approved by the members of the R. V. C. A. A.

It was moved and seconded that a series of short meetings be held to discuss a few of these articles at a time rather than have one long meeting where the business might not receive such careful attention. The motion was carried. The business of this revision can probably be completed in three meetings, or four at the most. A quorum must be present at each of these short meetings in order that a motion be carried.

Miss M. MacLaren Sports Manager, spoke regarding R. V. C. Sports Day on Oct. 24, and emphasized the necessity of selling the tickets.

As there was no further business the meeting then adjourned.

MISS H. TATLOW IS M.S.P.E. CHAMPION

Defeats Miss Routh in Straight Sets

The M. S. P. E. Tennis Singles were concluded to-day with Miss H. Tatlow's defeat of Miss M. Routh in two straight sets (6-0) (6-0).

The game was featured throughout by tennis of a very high calibre. Miss Tatlow was in her usual good form and had little difficulty in handling Routh's hard drives. The latter excelled in low long volleys exceptionally well placed, but Miss Tatlow seemed to have the faculty of foreseeing the possible positions of every ball and governed herself accordingly. Although Miss Routh played up well she seemed to experience some difficulty in dealing with Miss Tatlow's hard drives and rapid net play.

This match concluded the M. S. P. E. Tennis Singles and proclaimed Miss Tatlow the Champion. Both Year I and Year II are looking forward with interest to the Inter-Year Tournament which is scheduled to start on Saturday.

OLD TIMERS TIED WITH UNDERGRADS

McGill Has Strong Team for Intercollegiate Match

Fine, sunny weather greeted students and ex-students on their arrival out at the Beaconsfield Golf Club to play in the annual Graduates versus Undergraduates golf match. The course, thanks to the excellent work of Jimmy Black, the local pro, and the Greens Committee of the Club, was in splendid shape—the fairways soft and springy, and the greens smooth and true.

The following was the line-up of the players:

Students	Graduates
A. W. Mitchell	G. P. McCall.
L. G. Mickles	H. E. Walker
—	—
R. N. Hayes	A. D. McCall
J. A. Cameron	A. B. Darling
—	—
M. B. Cochrane	J. H. Robertson
W. B. Allen	B. S. Cornish
—	—
T. McAvity	C. W. Davis
A. Clarke	Allen Douglas
—	—
J. Gordon	W. Sutherland
W. G. Power	B. C. Abbott
—	—

The score was 2 all, and the game was very close all the way. The students showed up very well, and they promise well for the coming intercollegiate match to take place on Friday and Saturday over the Beaconsfield course.

The following men have been chosen to represent McGill in the coming match: J. A. Cameron, L. G. Mickles, R. M. Hayes, A. W. Mitchell, B. Cochrane and W. B. Allen.

PSYCHOLOGICAL SOCIETY MEETING

Address to be Given by Mr. R. S. Weir on Wednesday

The Psychological Society held its first general meeting of the season in the Arts Building last night at five. The executive had a gathering two weeks ago, so yesterday's meeting was to dispose of the business standing over, and to elect a second year representative. Mr. Hartz was elected to represent the second year in the society. Mr. McDermott read the minutes of the last meeting of the body, which was held last April in Strathcona Hall. After he had read the minutes, Mr. McDermott tendered his resignation as Secretary of the Society, owing to the pressure of his course and other college activities. He nominated Mr. G. H. MacVicar as his successor, and the motion was carried without a dissentient vote.

The Executive has prepared an interesting program for the current year, and have secured a number of well-known men to speak at the monthly gatherings of the society. The first address will be given by Recorder R. Stanley Weir on Wednesday, November fifth. Commencing with the above meeting, the society will assemble on the first Wednesday of each month till next April.

Before the meeting was adjourned, Dr. Tate, Honorary President of the Society, tendered a vote of thanks to Mr. MacVicar, the retiring Secretary, for his faithfulness and help throughout his term of office.

"Don't Use Big Words"

In promulgating your esoteric cogitations, or articulating your superficial sentimentalities, beware of platitudinous ponderosity. Eschew all conglomerations of flutulent garrulity.

Jeune babblement and assenine affectations. Sedulously avoid all polysyllabic profundity, pompous prolixity, pitaceous vacuity, ventriloquent vapidity pestiferous profanity, obscurient or apparent.

In other words, speak plainly, briefly, naturally. Keep from slang. Don't put on airs. Say what you mean; mean what you say and don't use big words.

ENGLISH RUGBYISTS TO PLAY TORONTO

Shake-up Results in Stronger Team

The team to represent McGill in the English Rugby fixture with Varsity at Toronto on Saturday the 25th was picked last night. Several changes have been made with a view to strengthening various positions that showed weakness last Saturday when the Toronto players beat McGill 11-3. However, since the total points of the home-and-home series are to count for the championship, there is still a good chance for McGill to pull ahead. The men chosen must all be on hand to-day at 4.30 as there is a possibility of a game with Montreal, which should do a great deal towards getting the plays running smoothly.

Full-back: Cheeseman

Three-Quarters: McInerney Patter-

son, Bradshaw, Evans,

Halves: Curran, Ross,

Forwards: McDougall, Hare, Wilson

Roome, Bundell, Lochead, Brown,

Walter.

Reserve: McGown.

MUSIC CLUB HOLDS MEETING TO-NIGHT

A meeting of the Musical Club will take place this evening at 8.15, at the residence of the President, W. S. Sheppard, Edgely Road. This is the first gathering of the Club this session, and it is expected that many of the undergraduates will take this opportunity of spending a very enjoyable evening.

Mr. S. H. Blair, a well-known authority on music, will address the society on "The Educational Value of Music;" and in conjunction with the address and the speeches, an excellent musical program has been arranged. Mr. Issaurel, a distinguished singing teacher formerly connected with the Grand Opera Co. of Paris, and Miss Asselin, a prominent local singer, will both render French songs. It is felt that the Club has been very fortunate in securing two such artists; and their singing will assuredly be appreciated by all.

Sporting Trophies

THE contest gains in zest when it is known that the victor's trophy is to be one of the famous Mappin & Webb designs.

In addition to a large stock of the well-known, established designs in cups, shields and medals, we offer many which are out of the ordinary. These are suitable for all branches of sport.

Again—the Mappin & Webb establishment is prepared to design and execute special sporting trophies to order.
